** Mentiuni privind comunicatia de roaming involuntar in apropierea granitelor.
Va recomandam sa dezactivați optiunea telefonului de selectare automata a retelei.
De asemenea, recomandam dezactivarea optiunii de mai sus si cand va aflati in roaming SEE, pentru a preveni fenomenul similar din zonele limitrofe ale tarilor respective (de exemplu Cipru, Ungaria, Bulgaria, etc), care se invecineaza cu tari NON SEE, precum Turcia, Serbia, Macedonia, etc.

https://www.ancom.ro/ancom58-atentie-la-roaming-involuntar-in-apropierea-granitelor-_6117:

"Autoritatea Națională pentru Administrare și Reglementare în Comunicații atrage atenția utilizatorilor de telefonie și internet mobil, care au serviciul de roaming activat, că pot ajunge în situația de a utiliza involuntar acest serviciu în apropierea granițelor țării. Roaming-ul involuntar apare atunci când telefonul sau tableta se conectează automat la o rețea dintr-o țară vecină, iar utilizatorii, deși se află pe teritoriul României, folosesc serviciile de comunicații în roaming.

Roaming-ul involuntar poate apărea în zonele de graniță de pe teritoriul României numai în cazul în care utilizatorii au activat serviciul de roaming, iar telefonul mobil sau tableta sunt setate pe selectarea automată a rețelei. În aceste situații, echipamentul mobil se va conecta automat la rețeaua operatorului cu cel mai bun semnal în punctul în care se află utilizatorul.
Utilizatorul, deși se află pe teritoriul României, va fi astfel facturat pentru serviciile de comunicații utilizate în roaming, ca și cum s-ar afla fizic pe teritoriul statului vecin.

Furnizorii au obligația de a informa utilizatorii asupra tarifelor, în valori care includ TVA, aplicabile serviciului de roaming utilizat în statul respectiv, imediat după conectarea la rețeaua parteneră, fără întârzieri nejustificate.

Utilizarea involuntară a telefonului/tabletei în roaming nu îi scutește pe utilizatori de plata acestui serviciu"
